

Overview of Company

Kavira Health is a subscription-based primary and urgent care clinic, that delivers all care via telehealth, and in-person home visits. The subscription fee is paid for by an employer, and in turn, employees and their families receive unlimited, on-demand, and completely free* access to our clinic. Kavira is on a mission to provide the most convenient, affordable, and accessible everyday healthcare imaginable. Kavira was founded in Minnesota in 2020, and today covers members across Minnesota, Wisconsin and North Dakota.

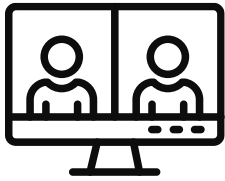

Overview of Services

Kavira offers an employer-funded, non-voluntary membership service. This membership provides employees (and immediate family members) with unlimited access to Kavira's clinical team – providing primary care, urgent care, free in-home x-rays, 30 free labs, and 300 free medications, via telehealth and home visits. Kavira's full services list, 30 free labs, and medication formulary can be found here: www.kavirahealth.com/services. Kavira employs a team of NPs (nurse practitioners), PAs (physician's assistants) and RNs (registered nurses) to provide all care – with the ability to diagnose, treat, and prescribe medications for common ailments. Kavira's clinic hours are 8am-7pm weekdays and 10am-2pm weekends (virtual only). Our goal is to provide incredibly responsive care – responding to members within 10 minutes virtually and providing home visits within 4 hours of a member needing in-person care. Kavira will never bill insurance, and will never bill a member directly for care*. Instead, all care is fully paid for by the monthly membership fee, thus fully removing the financial barrier to accessing care for our members.

We understand this service is unique – to that end, Kavira works alongside our clients to educate and engage employees, with the goal of driving utilization. Our employee education includes initial onboarding session(s) (either in-person, or through virtual webinars), and distributing marketing materials and educational content directly to members through text, email, or mailed brochures. Kavira will provide the Company with quarterly utilization reports, helping to inform engagement strategies, and allowing the Company to assess ROI.

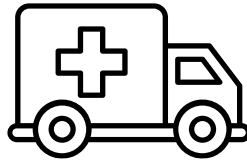

Our goal is to partner with our clients, and to help our clients provide an incredibly convenient, affordable, and impactful healthcare benefit to their employees.

** First dollar coverage regulations apply to individuals on HSA-eligible plans. Some lab tests may cost extra – in which case the patient will be made aware of the cost ahead of the visit, and will be billed directly following the visit.*

Virtual First

On-demand messaging and video chats with expert providers

House Visits

When in-person care is needed, our clinicians come to you – providing in-home tests, bloodwork, x-rays, and exams

Free Care
